TEEN CULTURE: THE LINGO

You may not know what pharming, roxy or hydro is, but your teenagers do. A first step in helping protect your teens is to speak the same language. Knowing the vocabulary surrounding substance abuse can help you take a proactive approach in communicating with your teen and safeguarding their health and safety. The number one cause of death for Sarasota Teens is accidental overdose. Parents need to be aware of the language and culture of our youth to help make a difference. For more information on this issue see the lingo used in North Port on the other side.
